### **BAHT Level I Examination**

- All eligible candidates are expected to undertake the online post-course examination, which can be accessed for two weeks after attending their course.
- Candidates will have 30 minutes to complete the exam at a time of their choice up to two weeks from when the course ends.
- Candidates will need access to a suitable device (i.e. desktop or laptop computer) as well as a good Internet connection, either at work or at home, at some point during those two weeks.
- The exam involves answering a range of questions based on the core Level I course content, which is then marked and the results passed to the BAHT secretary to produce attendance/pass certificates accordingly.
- The pass grade for the assessment is 60% and successful candidates who are qualified OTs or PTs gain 1 BAHT level I point towards becoming a BAHT AHT.
- Any candidate who is initially unsuccessful in achieving 60% in the post-course examination will be allowed one opportunity to re-sit the examination (with different questions).
- Candidates who attend all sessions of the course but do not successfully complete the exam will receive an attendance certificate.
- Full details of how to access and undertake the post-course examination will be given to candidates during the course.
