

## **BAHT requirements for candidates:**

- (i) Thorough knowledge and understanding of relevant anatomy are essential when treating hand and wrist injuries and conditions. Candidates are expected to undertake detailed prereading and revision from a list provided by the course organisers prior to the course start date.
- (ii) Candidates are required to attend all sessions, whether delivered face to face or virtually via a video-conferencing platform, on all days of their BAHT level II course programme in order to receive their attendance certificate and become eligible to complete the course assessment process.

Where unforeseen circumstances lead to a candidate missing part of the course the BAHT representative will assess whether the candidate has attended enough of the course programme for successful completion, whether any additional independent study is required or if the candidate is unable to officially complete the course.

As an absolute minimum 80% of taught content must be attended in order to complete the level II course. It is the candidate's responsibility to ensure their attendance, course providers are not obliged to offer candidates who are unable to attend part or all of a course at short notice any refund or transfer onto another course.
- (iii) All eligible candidates have the opportunity to undertake the course assessment, which will be in a minimum of two parts (for example an examination and submitted assignment).

The pass grade for the assessment is 60%, successful candidates who are qualified OT's or PT's gain two Section 2 British Association of Hand Therapists Level II Guidelines v.7 9 BAHT level II points towards becoming a BAHT AHT.

For a full explanation of the BAHT education process to AHT please look at the BAHT website on [www.hand-therapy.co.uk](http://www.hand-therapy.co.uk).

Any candidate who is initially unsuccessful in achieving 60% in an assessment task will be allowed one opportunity to re-attempt this following feedback from the course organiser
